Worker hurt on US 41 Project near Glory Road

Injury occurred during paving operation

The Wisconsin Department of Transportation's (WisDOT) Northeast Region Office in Green Bay is announcing a worker was injured this morning during paving operations on the US 41 Project near Glory Road at approximately 9:45 a.m. The Brown County Sheriff Department responded. The worker was transported to an area hospital with what is believed to be non-life threatening injuries.

Traffic on US 41 was temporally delayed while the worker was moved from the job site.

This work is part of the \$57 million project to reconstruct the US 41/Main Avenue interchange and expand US 41 to six lanes of traffic between Orange Lane and Glory Road.

WisDOT's top priority is keeping construction projects safe for workers, the community and the traveling public. WisDOT will work with all agencies involved to review safety procedures and to make sure all safety guidelines are followed.

Michels Corporation, Bownsville, is the prime contractor on this stretch of the US 41 Project. All further inquiries regarding details of the incident, including the name and age of the worker, should be directed to Michels Corporation.
